All,  
I believe Sandy Stavnes is already working this request. Recommend we check with Sandy / Bill Murry before proceeding with any coordination with other entities.

Best regards,

Andrew

Hi Robert,

Thanks for the suggestion, I think the cost-recovery piece from PRPs will require coordination with the LEP program. I'll look into whether the settlement agreements and penalties are public information. Sophie will need to contact the State DEQ to learn about their costs. Do you know who in R8 Superfund tracks the funding for cleanups? Is it centralized or managed by the RPMs and/or project managers?

Thanks,

Jody

Hi Jody,

From the nature of this inquiry, you may be looping in HQ and other folks in coordinating a response on this message from Senator Daines' Office.

I talked with Joe and one of the issues is that PRPs are not obligated to share their costs with EPA. Let me know how we can add value to the response.

Thanks Jody.

**Subject:** RE: Monthly EPA calls with U.S. Senator Daines Office

Hello all,

Thank you very much for your time again today. These calls are most helpful.

This is likely a question for EPA HQ but we're looking to know how much is spent on Superfund cleanup in Montana annually. Would you be able to discern how much EPA and the MT DEQ spend, respectively, each year, as well as how much PRPs in MT have paid on their own? I understand you may not have this information readily available but do you think it would be feasible to provide some estimates?

Thank you.

-Sophie
